Bathroom

From dream to reality

The bathroom has become a room reflecting our personality and matching our individual styles. The room is for self-pampering, revealing that it has been decorated entirely for ourselves.

This new trend is reflected in the materials, design and style we choose for the decoration of our new bathroom. We want to pamper ourselves as we take a break to enjoy a peaceful moment in our warm bathroom. Cosiness and comfort should be the focus of the room. Only your imagination sets the limit for the decoration of your bathroom. KUMA offers the widest and most flexible range of colours, materials and types of sinks/basins available.

Don't hesitate to ask us: we have what it takes.

De la vis la realitate

Baia moderna a devenit un spatiu care reflecta personalitatea si stilul fiecaruia. Este locul unde ne putem relaxa si el trebuie amenajat asa cum ne place.

Stilul, materialele noi si designul produselor KUMA va pot ajuta sa aveti o baie personalizata si moderna. Vrem sa va rasfatam astfel incat sa savurati adevarate momente de liniste in baia dumneavoastra primitoare. Comoditatea si confortul dumneavoastra sunt obiectivele noastre. Doar imaginatia poate impune limite cand vorbim despre amenajarea baii personale.
